

# Year 3 Optional Homework - Summer 2024

## "Where will your imagination take you?"

From the 9 tasks below, choose 4 to complete over the whole term. There will be at least 2 weeks to complete each task, so we would like you to take time to produce your best learning with lots of care and effort. You can present your learning in any way you wish. We look forward to seeing your wonderful learning!

<p>Grow a plant. Keep a plant diary showing each stage of the plant's development. Measure how much it grows over a period of time and record it.</p> 	<p>Find a piece of artwork of a natural landscape. What do you like/dislike about it? Can you recreate it in a different way?</p> 	<p>Carry out a survey on plant and animal life in your Garden or local park. You could use a bar graph to show your results.</p> 
<p>How can we best protect our local environment? Create a leaflet to explain your ideas. Where would be a good place to put your leaflet?</p> 	<p>Design and make a plant pot using a recycled item. How adventurous can you be?</p> 	<p>Keep a diary of all the different types of plants you eat over a week. Find out where they are grown and what conditions they need.</p> 
<p>Voyage around the world! Use a map of the world to plot your very own adventure. Choose 10 places to visit and research what you could do in each place. Ask your family for some inspiration or recommendations.</p> 	<p>You have awoken on a deserted island. Use your imagination to write about your first few hours on the island. Do you find other people? Do you build a raft to try and go home? Do you choose to live on this island forever?</p> 	<p>Find out about a famous explorer and write a fact file. Why did they explore that area? What obstacles did they have to overcome to continue?</p>
